

Fowler/Bowers XT Bore Gages

Fowler/Bowers is pleased to introduce the XT Series Bore Gage System.

The XT stands for eXtended Travel, which now allows for greater range and capacity without the need to switch or replace measuring anvils. The units are available in Pistol, Micrometer Style and mechanical series.

XT Bore Gauge Features:

- Resolution to 0.00005" (0.001mm)
- Blind Bore anvils on heads above 1/2"
- Two Preset Memories for ring gages
- Carbide anvils on heads above 1/2"
- Direct Inch to Metric Conversion
- Direct SPC RS-232 Output
- 2 Point heads 0.080" to 0.236"
- 3 Point heads 0.236" to 12.000"
- Variety of range sets available
- Includes NAMAS(NIST) Certifications
